Bring photographs & other mementos (food, drinks, special items) of your loved ones to decorate our altar, & share a story or reminiscence. POT LUCK AFTER THE SERVICE

Dear UUFGC Colleagues,

Your board met Monday, Oct. 12 and covered a lot of ground. In particular, the Administrative Team has submitted a list of repairs and improvements that need our attention. In the very near future I will be asking for volunteers to rally for a work day to address some of these items (others will require professional services to complete properly). I intend to meet with the Administrative Team before our November board meeting to work out the details.

Additionally, the Houston area UU ministers and lay leaders are being asked to participate in an exciting opportunity. It is to field test the UUA's Tapestry of Faith curriculum, **What Moves Us: Unitarian Universalist Theology**. We have been invited to participate. I have already received preliminary material about the program and the first several workshops. It involves facilitator training with Thandeka, a very prominent UU minister and theologian. This appears to be a great opportunity for our Fellowship!

thandeka.htm](http://www.witherspoonsociety.org/thandeka.htm)

I am discussing with our Worship Committee and Adult RE group. If interested see me for more details.

Best,
John Hunger

Love is the spirit of this church, and service is its gift.

This is our great covenant: to dwell together in peace, to seek the truth in love, and to help one another.

Rest Assured, Fellow UUs, We're All Safer From Terrorists than you Might Think!

Pete Olsen is on the job. Pete is working with government agencies in security management integration as a project manager. Right now he's working with the Galveston wharves, putting together a program in prevention against terrorism.

Pete is a long time member of UUFGC. He is usually around on Sundays with Diane, his wife, who takes care of our sea friends at Moody Gardens, and Astrid, his mother, who's usually kind of quiet and doesn't get around too well, so be sure to stop by and say hello to her on Sundays. She's a sweetie.

Pete's parents came to the states from Denmark in 1947 after the war. They moved to Washington, D.C. where Pete was born. He grew up in a suburb of Virginia with his sister and brother. He admits he was never a great student, and got drafted into the army in 1969, where he opted for power equipment training. He was sent to Vietnam, where sticking

to his scruples, he was able to resist the wild ways of a GI in Nam; a great challenge, he says. He married Susan Baker while in the army, and they settled in Galveston in 1974. They had two daughters. Susan, of course, is now married to John Hunger. Kudos to all of them for being so civilized and being able to get along and attend our UUF. We are all a big happy family here.

Pete met Diane through a friend of hers, who worked with Pete. I asked Pete if the friend was married, and he said she was single. I wondered why this young single woman didn't grab him for herself. He did not believe in dating anyone he worked with. Up popped those scruples again, I guess. Lucky for Diane. They married in 1997, here at UU, after less than a year of dating.

Pete has worked around motorcycles and boats. He also worked for an upholsterer for awhile. He eventually got a B.S. in environmental management,

while working for Texas A & M. He developed a program for the school in oil spills response. Under his leadership, ten thousand people in the oil industry went through a five day training in environmental awareness related to prevention and response to oil spills. He feels really good about this contribution to protecting our earth.

Pete was attracted to Galveston for its fishing. He has a boat in his driveway, but laments the fact that he doesn't do much fishing these days. He's always ridden a motorcycle, and continues to do so.

Pete has been an asset to UUF. He served as president several times and as secretary a couple of times through the years. He's been invaluable to us because of all the maintenance he's done around here. We've all benefited from having him as a member.
